New's

New Super Red Cured Blades

Super Red Viper — Our proven, high performance Viper blades, designed for “Every Day Service Work”, are now available at a lower cost and in a wide variety of specifications. The combination of price and performance adds up to great costs per in foot, resulting in additional profits going straight to your bottom line.

Super Red X and Super Red — Are a new designs, enhanced for greater performance at a price that really fits your service work budget.

Super Red Gold — This is the blade for cutting contractors looking for a unbelievable price on a blade that has a jumbo segment and performs like that more expensive blades. We’ve designed the new Super Red Gold blades with 1 general purpose bond and limited size options to enable us to mass produce and pass the manufacturing savings on to you.

New Super Red Asphalt Blades

Super Red Gold — We’ve taken our best performing asphalt blades, the Super Red, and tweaked them slightly and reduced the price significantly to bring you an asphalt blade that not only gives you great performance, it also saves you a bunch of money up front! Available in 3 different bonds and designed for most all asphalt sawing applications.

New Super Red Wall Saw Blades

PLW PRO1 — The PRO1 blades were introduced recently and have proven to be a very good performer in the mid range priced wall saw blade market. Designed to run with hydraulics and hycycle electric wall saws with smooth speed, very good life and great cutting in steel. Available in 2 different bonds for all around general purpose cutting.

Super Red Tower — This is a brand new line of wall saw blades, utilizing the ttowerseg design. The Super Red Tower wall saw blades are engineered for speed and priced to seriously compete with any wall saw blade on the market. At this price you’ve got to try one!
