**ZENESIS**<sup>®</sup>  
TECHNOLOGY

*Performance Line*

# MATRIX

**Custom designed diamond blades for  
Wall Saws, Slab Saws and Hand Saws.**

**ZENESIS® is a platform technology that brings to life dramatic improvement in diamond tool performance by its ability to custom design and produce optimal patterns of diamonds based on application needs.**

## Simple Arrangement of Diamonds

- Elimination of randomness provides only marginal improvement in performance.
- And does not justify the increase in cost.

## ZENESIS® Technology: A New Generation of Diamond Tools

- Delivers optimally customized patterns of diamonds for specific applications.
- Maximizes product consistency.
- Can improve both cutting speed and blade life.
- Is protected by patented technologies.
