# What's New's

*It's a Hole Making Machine !*

## Introducing" The **Core Wizard 2-8** (Patent Pending) **Drilling System**

- ◆ Hand held drilling with an anchored guide rod for fast & precise drilling from 2" to 8" diameter.
- ◆ Remove the anchor with the core. No more anchors left in the slab or wall.
- ◆ Quick and easy setup.
- ◆ Very Compact which saves valuable truck storage space.
- ◆ Great for drilling all types of concrete and masonry materials, including concrete pipe.
- ◆ You'll be amazed at how simple, economical and quick this drill system is.

*The Core Wizard is part of the  
Core EZ® Family of Drilling Systems.*

**What's  
New's**

Locate the center of your core hole and drill and install a 3/8" or 1/2" anchor.

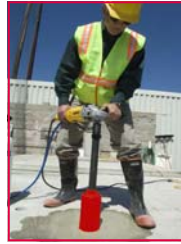

Screw in the mandrel assembly with washer into the anchor.

Insert the bit & drive shaft assembly over the mandrel assembly.

Proceed to drill with your right angle grinder or hand held drill.

When finished drilling remove bit, drive shaft and drill motor and then remove the core with the mandrel assembly attached.

**Core Wizard 2-8**  
Kit List Price:  
\$ 632

The **Core Wizard 2-8 Kit** includes Carrying Case, Guide post, Drive shaft, Water line, Concrete Anchors, & Manual. Right angle grinders and hand held core drill motors sold separately.

Hand Held Drill

Right Angle Grinder

The **Core Wizard 2-8 Drilling System** is a patented system, incorporating a unique core bit with a special thread design for precise drilling performance.

The PLB 2 CWT core bits are available in sizes from 2" to 8" diameter and engineered for fast cutting performance and great life in wet drilling applications.

Ideal for the variety of every day drilling applications.

**Performance Line  
Core Wizard Core Bits (PLB 2 CWT)**

Size	List Price
2 x .145	349
