*Performance Line*

# Ring Saw Blades

**Segmented, Rescue & Matrix**

**Segmented**  
for high performance and excellent life in general purpose concrete sawing applications.

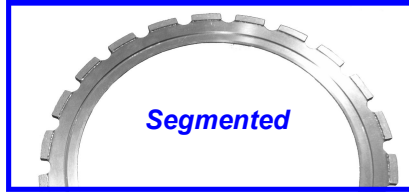

**Rescue**  
for a variety of applications including ductile iron, steel, glass, wood and a huge range of other materials.

**Matrix**  
for great speed and excellent life in concrete and other hard material sawing applications.

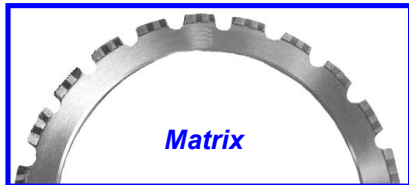

# What's Newz

## Ring Saw Blades Segmented, Rescue & Matrix

For excellent cutting performance when cutting cured concrete in both .165" and .235" wide segments. The White Grade is a general purpose specification and the Red Grade is available in 3 specifications for Hard, Medium and Soft materials.

The vacuum brazed technology is the key to the versatile cutting ability of the Rescue style blades. Available with a .165" segment width and designed to cut both dry or wet in a wide range of materials including concrete, steel, masonry, ductile iron and more.

Matrix is our new line of diamond tools designed with diamond particles engineered in patterns for specific applications. The technology is called Zenesis and it's incorporated in our new generation of ring saw blades for optimal speed, life and value.
