THE NEW "DOALL" MADE IN THE USA HIGH-SPEED BLADE - MATRIX TECHNOLOGY™

The operators **choice** What you are **getting**

The jumbo size segments and the unique blade design combine to make the new MADE IN THE USA high speed hand saw blades the operators choice for elevated cutting speeds and extended life!

Pro Performance, created by the great speed and life. Obtained through the use of matrix technology. The geometry of the tall alternating segment design, give the **DOALL USA** the great ability to cut a variety of materials.
